Supervisory Patent Examiner, Art Unit 3714

Reasons for allowance

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or render obvious, in a keno game, a combined spot entry corresponding to a combination of indicia in the player spot entry and game indicia in the supplemental spot entry such that the number of game indicia in the combined spot entry corresponds to the total spot entry & comparing the game indicia in the combined spot entry to the game indicia of the drawn subset to determine if a second award is due based on the level of correspondence between the game indicia of the combined spot entry and the game indicia of the drawn subset, in combination with the other claimed limitations.

After reviewing Applicant's claim amendments submitted 5/6/2009, Examiner conducted a further search and discovered prior art to Baba (US 5,651,735), however this reference also fails to disclose or render obvious the claimed invention. Baba requires extracting additional keno balls to provide a combined award but does not provide for a combined spot entry as required by Applicant's invention. Accordingly, Examiner believes the application is allowable. Hence, Claims 53-62 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
